201 BORDERS ROAD

VAIL, CO | \$8,995,000

In the grand style of the great old European Lodges, this architectural masterpiece is tucked on a gently rolling hillside beneath a colorful aspen grove. Using the native landscaping as a guide, this log, timber and stone masterpiece was custom designed to bring the outdoors in andndash; not only with the dramatic use of large windows, but also the extensive outdoor living spaces, patios and decks. With use of custom, hand-hewn Douglas fir, rough sawn plank siding, chinked at-log walls and timbered beams, this 7 bedroom, 8.5 bath home is both dramatic and inviting. Interior spaces were custom created by Slifer design in a modern, Western style. This residence has a wine cellar, home theater, elevator, large fitness room and air conditioning for those rare hot summer days. Surrounded by protected open spaces the manicured grounds have a bubbling waterfall and naturally inspired water features.
